MILLIONAIRE

A bundance, wealth, prosperity and success – we all crave it, not just for what the money will do, but for the choices it offers, the fun we create with it and the life we can live with it.

Why do some people seem to attract money and riches so easily, and others live their entire lives struggling to make ends meet? Why can it seem that the rich get richer and the poor get poorer?

There's a secret to creating a life filled with prosperity, and I can't wait to share it with you.

It's not about how much money you make, but how you think about money that makes the difference between a life of prosperity and one of continual money challenges.

No matter what your situation is, it can be changed. If you desire more abundance, I'm going to show you, week by week, how to use a great secret to obtain it.

Living the life of your dreams instead of just dreaming about it is about creating a millionaire mindset. That's my speciality! My name is Sandy Forster and I've been a prosperity mentor, sharing the principles featured in *The Secret* for more than five years with clients all over the world.

Not that long ago, I was a single mum, struggling on a single parent's pension. Today, using the principles of *The Secret*, I've gone from welfare to millionaire, and anyone can do the same.

There's a secret to getting everything you want, and it's simple. It may be something you've already heard about. What you're experiencing financially in your life now, whether it be riches beyond your wildest dreams or constant challenges, it's due to principles you may not be aware of.

There's a universal law, which states: 'We attract whatever we choose to give our attention to, whether wanted or unwanted! If you continue to focus on the lack and limitation in your life, you'll continue to create and attract more lack and limitation. If you instead focus on the wealth, abundance and prosperity that's already present in your life, no matter how small it may currently be, then you'll instead begin to create and attract more wealth, abundance and prosperity.'

It doesn't matter if you have nothing even

remotely prosperous in your life to focus on. This is the exciting part – you get to use your imagination. You get to pretend. You get to daydream. You get to 'fake it 'til you make it'.

Wherever you're at in your life now, by following the steps in this column each week you can create more of what you desire. I'll be sharing

strategies, skills and exercises so your focus is on the prosperity in your life, because the more you focus on something, the faster you'll experience it.

For some, this comes naturally. For others, like me, it can be an arduous journey. Through my failures and bad decisions, I've developed a passion for what makes people rich, and through that I've created my own wealth. Now I'm sharing the secrets with you. Remember, focus on what you want – a life filled with prosperity, abundance, riches, wealth and happiness!
